Korean Association for Radiation Protection, Korea
Division of Radiation Science and Engineering, Korean Nuclear Society
Korean Association for Radiation Research, Korea
Advanced Radiation Technology Institute, Korea
Japan Health Physics Society, Japan
Japanese Society for Radiation Safety Management, Japan
Division of Radiation Science and Technology, Atomic Energy Society of Japan
Chinese Society of Radiation Protection, China
State Scientific Institution "Institute for Single Crystals", Ukraine
Hong Kong Radiation Protection Society
Institute of Nuclear Energy Research, Taiwan
Malaysia Radiation Protection Association, Malaysia

Important Dates & Location

Abstracts Due: April 16, 2007
Notification of Acceptance: May 15, 2007
Registration Due: May 31, 2007
Full Papers Due: July 19, 2007
Venue: Hanyang University
Seoul, KOREA

Registration Fee

Participants: 150 USD
Students: 50 USD

Contacts

General Information and Paper Submission:
E-mail isord-4@itrs.hanyang.ac.kr
Website <http://www.isord-4.org>
Secretary General:
Chan Hyeong Kim chkim@hanyang.ac.kr

Publication

The accepted papers will be published as a supplement of the *Journal of Nuclear Science and Technology* (SCI) after a proper review process.

Call for Papers

ISORD-4

The Fourth International Symposium on Radiation Safety and Detection Technology

Hanyang University, Seoul, KOREA
July 19~20, 2007

Welcome to the ISORD-4

The 4th International Symposium on Radiation Safety and Detection Technology

On behalf of the organizing committee of the ISORD-4, it is my great pleasure to invite you to The Fourth International Symposium on Radiation Safety and Detection Technology to be held at Hanyang University in Seoul, Korea on July 19-20, 2007. The symposium is organized and sponsored by iTRS, which is supported by the Ministry of Science and Technology (MOST) in Korea. Following the previous three successful meetings at Hanyang University (ISORD-1, Korea, 2001), Tohoku University (ISORD-2, Japan, 2003), and China Institute for Radiation Protection (ISORD-3, China, 2005), the ISORD-4 meeting will continue providing ample opportunities of exchanging various scientific and technical findings and information among the participants in the field of radiation safety and detection technology including radiation shielding, dosimetry, measurement, etc. We hope to see many scientists and researchers from many different countries will join the meeting and discuss freely the state-of-the-art technologies in the field. Thank you!

Chair, ISORD-4
Jong Kyung KIM

Symposium Topics

Radiation Transport and Shielding
Radiation Dosimetry
Radiation Detection and Sensor Technology
Environmental Radiation Measurements and Assessments
Radiological Risk Management
Radiation Protection Philosophy and Policy
Current Radiological Issues

Organizers

Innovative Technology Center for Radiation Safety (iTRS, KOREA)
Korea Science and Engineering Foundation (KOSEF, KOREA)
Cyclotron and Radioisotope Center (CYRIC, JAPAN)
China Institute for Radiation Protection (CIRP, CHINA)

Organizing Committee

Chair:

Jong Kyung Kim
Professor, Director General of iTRS, Hanyang University, KOREA

Co-Chairs:

Takashi Nakamura Professor Emeritus, Tohoku University, JAPAN
Yiren Xuan Professor, Director General, CIRP, CHINA

Technical Program Chair:

Jai Ki Lee Professor, Hanyang University, KOREA

Co-Technical Program Chairs:

Mamoru Baba Professor, Tohoku University, JAPAN
Liu Qun Professor, China Institute for Radiation Protection, CHINA

Secretary General:

Chan Hyeong Kim Professor, Hanyang University, KOREA
